SPECIFIC COMMENTS:

Please describe what you like best about the school/school district you are reviewing:

The services are pretty good once you are able to convince them to give your child any.

Please describe what you like least about the school/school district you are reviewing:

The hoops you have to jump through to just try to get services for your special needs child is ridiculous. I have had to fight to get my child what little services that he has received.

What changes would you like to see made at the school/school district you are reviewing:

They need to listen to the parents and provide services more easily.

What specific problems, if any, have you encountered with this school/school district:

They turned down my child for any servies even though my child was diagnosed with severe to moderate autism. I had to keep pushing and having meeting after meeting and then they only gave my child one hour a week of therapy.

Is there anything else you would like other parents to know about this school/school district:

Don't give up asking for services. It is very hard to get them to provide services, but keep asking for it.
