My overall satisfaction with the special education services my child receives.	1/4	1/4	2/4				

SPECIFIC COMMENTS:

Please describe what you like best about the school/school district you are reviewing:

It is a self contained school for children with severe disabilities. The teachers are the most important factor about the school.

The structure.

Please describe what you like least about the school/school district you are reviewing:

The city I live in wants to break away and this will be detrimental to my child. There are also safety concerns regarding doors and surrounding areas (the school is working on this issue).

They do not allow parents to come inside with the children but insist on you dropping them off.

What changes would you like to see made at the school/school district you are reviewing:

Make the school larger and provide EC/ED hall from 3-21 not 3-13 like the MD hall is. Have the school more involved with help for students who will exit/transition to adult services (which there is NONE).

What specific problems, if any, have you encountered with this school/school district:

Lack of knowledge concerning what parents need to know as far as transition to adulthood, community services that might help, no after school program (after 5th grade).

Is there anything else you would like other parents to know about this school/school district:

Linda Nolen is wonderful for children for whom inclusion is not the answer. They love the children and provide great care and concern for the children.

You have to be an active participant in your kid's plan.
