	Very Satisfied	Satisfied	Somewhat Satisfied	Neutral	Somewhat Dissatisfied	Dissatisfied	Very Dissatisfied
My overall satisfaction with the special education services my child receives.		1/2				1/2	

SPECIFIC COMMENTS:

Please describe what you like best about the school/school district you are reviewing:

The teachers are truly concerned about the needs of the students and do the best with what they have to work with.

Please describe what you like least about the school/school district you are reviewing:

There are not enough resources outside of the school system like those you would find in larger urban areas. Due to lack of funding the teachers have to take it upon themselves to stay up-to-date on the newest teaching methods for students with Autism or any other disability.

What changes would you like to see made at the school/school district you are reviewing:

More outside services coming into the school such as OT to assist with student needs. For the school or system to have a person who's only job was to assist with behavioral concerns.

What specific problems, if any, have you encountered with this school/school district:

Transportation—there are not enough buses for children with special needs to have a route that is at a similar length ride to those without disabilities. Those buses also need aides on them. The special education teachers' case loads are too high to meet the demanding needs of all their students. New and up-to-date technology.

Is there anything else you would like other parents to know about this school/school district:

I can't say enough about how much the teachers really care about the students both with and without special needs.
