SPECIFIC COMMENTS:

Please describe what you like best about the school/school district you are reviewing:

The teachers seem to be truly caring. They want my child to succeed. They are very respectful and professional and address my concerns.

Please describe what you like least about the school/school district you are reviewing:

They seemed like they did not want special needs kids at their school.

I dislike that it takes so long to get services. Money seems to be the main issue in regards to everything.

What changes would you like to see made at the school/school district you are reviewing:

The teachers are not trained in how to deal with Autism/Aspergers children. They should know at least the basics. I provided books to my son's special ed teacher because she told me she knew nothing about Aspergers.

What specific problems, if any, have you encountered with this school/school district:

None so far except they take forever to assess a child.

Is there anything else you would like other parents to know about this school/school district:

The school itself is a great school. The staff is professional. That being said—I feel that the teachers need more training in educating children with special needs.
